High-performance core cutting.

The Cutter-d is an automatic core cutter. An easy to use touch screen panel allows quick input of required quantities and lengths of cores to be cut. The "Start" button activates the intelligent slitting software. Operator intervention is not required during cutting. The core cutter has been designed for quick setup of different core IDs. The Cutter-d is our answer to the increasing requirements of our customers for a quick and dust free cut of cardboard cores.
