

# MTTR

## HORIZONTAL TABLE REWINDER

Price: \$ | Speed: >>>>

### Label rewinding. Made easy.

The MTTR is dedicated to post production jobs like: rewinding on different core's sizes, optic inspection of labels, rewinding of faulty rolls, counting. The ergonomic design of the device enables sitting position of the operator during work. The machine is microprocessor controlled. The intuitive interface is combined with 3,4-inch color touch screen. Table's plane angle is changeable by motor. Machine rewinds both direction and thanks to automatic slowdown and stop system allows to stop on exact desired label or distance.

#### PRODUCT FEATURES

- Both direction rewinding
- Counting (labels / meters)
- Optic inspection and making amendments

## SPECIFICATIONS

<b>Max. Working Width</b>	250 mm (9.8 in)
<b>Max. Speed</b>	150 m (492 ft) per min
<b>Electric Supply</b>	200 - 240V / 10A / 50 Hz (60 Hz as option)
<b>Air Requirement</b>	0.8 l per min
<b>Working Pressure</b>	3 bar
<b>Weight</b>	200 kg (441 lbs)
<b>Dimensions (L x W x H)</b>	L: 860 mm (33.9 in) x W: 1,110 mm (43.7 in) x H: 1,050 mm (41.3 in)

## OPTIONS

- Splice table
- Footswitch for easy speed control
- Missing label detection
- Extra long web path for inkjet printing  
(enabling the ink to dry before rewinding)
- Stroboscope with flexible arm for optic inspection
- Slitting unit (razor blades)
